

Listed below are the questions in the **Adverse Childhood Events** survey. This is a version provided to adults. For each positive answer, record a point. The number of points is your score. *Please remember: ACE scores don't tally the positive experiences in early life that can help build resilience and protect a child from the effects of trauma. This is additional piece of information that may inform your own exploration and lead you to talk to your health care providers and others about what is challenging to you now and what supports you may need.*
